

PRODUCT INFO

Foam Glass Clean Plus

Art.: 04.1177.9999

Aerosol can 500 ml

Foam Glass Clean Plus is a special further developed cleaner for smooth surfaces which has been registered by NSF (class C1). It removes grease, dust, dirt, insect residues, nicotine, etc. from all kinds of glass and (transparent) plastics, many metals and cured painted surfaces without leaving streaks. Foam Glass Clean Plus does not run off vertical surfaces, which ensures optimum performance and makes that it does not reach places where it is not meant to be. This prevents for example attacking of the anti-corrosive coating in car doors.

Due to its perfectly balanced composition of high-quality raw materials Foam Glass Clean Plus does not attack dashboards or other plastic parts, including almost all cured painted surfaces. The product guarantees a perfect result without spots or haze.

Foam Glass Clean Plus is NSF registered, so it can be safely used in environments where people are working with food and/or in food processing companies.

Foam Glass Clean Plus comes in a handy aerosol can, which makes the product very economical.

- Cleans effectively without leaving streaks or residue.
- Does not contain abrasives, so also safe for sensitive surfaces.
- Does not attack cured paints or plastics.
- Leaves a pleasant and fresh odour.
- Stable foam building (so longer concentrated action on the dirt) and easy to polish.
- NSF registered (class C1), register number 149098.
