

# Foam Glass Clean Plus

Art.: 04.1177.9999

Aerosol can 500 ml

Foam Glass Clean Plus is a special further developed cleaner for smooth surfaces which has been registered by NSF (class C1). It removes grease, dust, dirt, insect residues, nicotine, etc. from all kinds of glass and (transparent) plastics, many metals and cured painted surfaces without leaving streaks. Foam Glass Clean Plus does not run off vertical surfaces, which ensures optimum performance and makes that it does not reach places where it is not meant to be. This prevents for example attacking of the anti-corrosive coating in car doors.

Base:	Solution of non-ionic surfactants
Density:	960 kg/m <sup>3</sup>
Consistency:	White foam
Solvents:	Glycoether
Flash point:	< 0°C
Foam stability:	Foam Glass Clean Plus has an excellent stability and evaporates slowly, which makes that the surface can be cleaned for a longer time.
Tests:	Registered by NSF (class C1), register number: 149098
Application conditions:	+5°C to +45°C
Type of surface:	All types of glass and (transparent) plastics, many metals and cured painted surfaces. Do not let it dry on the surface - can cause a corrosive effect!
Application method:	Shake can well before use. Hold can upright. Spraying distance approx. 20 cm. Apply a thin coat of Foam Glass Clean Plus on the surface. Then rub with a clean, dry and soft cloth (preferably paper). Repeat the treatment in case of more concentrated dirt. When cleaning car windshields, also clean the windshield wipers with a cloth using Foam Glass Clean Plus. For professional use.
Cleaning of hands:	With Innotec <a href="#">Power Scrubs</a> or with Innotec <a href="#">Safe Hand Clean Plus</a> and water
Shelf life:	2 years in original, unopened packaging
Storage conditions:	Store cool and dry
Type of batchcode:	F
Other details:	Leaves no residue
EAN Code:	5400563022221

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product

can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
