

Hydro Guard 5 l

Art.: 80.0305.6100

5 l

Hydro Guard is a very high-quality impregnation product providing colourless, breathable and water-repellent protection for façades and sloping roofs.

Base:	Oligomer siloxanes
Density:	837 kg/m ³ (at 20°C / 65% relative humidity)
Consistency:	Liquid
Viscosity:	1 mPa.s (at 20°C / 65% relative humidity)
Solvents:	Mixture of alcohols
Flash point:	± 11°C
UV resistance:	Very good
Percentage of solids:	8%
Application conditions:	+5°C to +25°C
Type of surface:	All porous stones and upholsteries such as bricks, limestone and sandstone, cellular concrete, concrete stones, joint mortar, fibre cement and stucco. It is recommended to test first on the surface. <u>Remark:</u> Not applicable on wood, marble, slate and bluestone.
Surface preparation:	The surface must be clean, dry and free of grease. The surface can be slightly damp. Remove moss, alga, paint residues, etc., from the surface.
Application method:	Cover windows and doors. Apply Hydro Guard undiluted and continuously as an even layer from the bottom to the top using either a brush or an atomizer. For best results the surface should be saturated. Prevent supersaturation which makes the product run or drip.
Consumption:	Absorbing surfaces: max. 1,25 kg/m ² Other surfaces: ± 0,5 kg/m ²
Recommended layer thickness:	Apply sufficient product to saturate the surface.
Cleaning of hands:	With Innotec Power Scrubs or with Innotec Safe Hand Clean Plus and water
Shelf life:	1 year in original, unopened packaging
Storage conditions:	Store cool, dry and frostfree
Type of batchcode:	F
EAN Code:	5400563030950

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
