

PRODUCT INFO

Metal Finish

Art.: 02.3106.1080

Aerosol can 500 ml

Metal Finish is a unique, metallic grey spray lacquer of OEM quality. Due to a chemical reaction, the lacquer provides a highly impact-resistant coating once it is dry. Metal Finish covers quickly and efficiently almost all contemporary plastic and metal surfaces in a nice even coat. It provides the treated surface with a perfect imitation of the most frequent metallic colours.

Because of its beautiful metallic grey colour, Metal Finish is perfectly suited for spray-painting all kinds of silver parts in the automotive and industry sector such as chassis parts, hinges, footboards, frames, panels, etc.

Metal Finish can also be used to paint supports and braces that are often made to measure and then still have to be finished in a professional way.

Its unique composition makes Metal Finish particularly suitable for fast application in several layers. Thanks to its aerosol packaging this product is extremely user-friendly and easy to apply. Using the special nozzle the product can be sprayed in a very professional spray pattern.
