

Metal Finish

Art.: 02.3106.1080
Aerosol can 500 ml

Metal Finish is a unique, metallic grey spray lacquer of OEM quality. Due to a chemical reaction, the lacquer provides a highly impact-resistant coating once it is dry. Metal Finish covers quickly and efficiently almost all contemporary plastic and metal surfaces in a nice even coat. It provides the treated surface with a perfect imitation of the most frequent metallic colours.

Base:	Alkyd resin and special pigments
Density:	684 kg/m ³
Consistency:	Liquid (ready-to-use in aerosol)
Solvents:	Mixture of aromatic and aliphatic solvents
Flash point:	< 0°C
Temperature resistance:	-30°C to +120°C (short-time limit +200°C)
Water resistance:	Good
Solvent resistance:	Good, in the case of brief contact
Application conditions:	+15°C to +30°C
Type of surface:	Just about all modern plastics and metals
Surface preparation:	The surface must be clean, dry and free of dust and grease. Sand the surface, preferably with a sanding block. Clean metal surfaces with Innotec Multisol or Innotec Seal and Bond Remover . Provide untreated metal with a primer (Innotec Speed Primer or Innotec Zinc Coat). Clean plastic surfaces with Innotec Repaplast Cleaner Antistatic and pre-treat them with Innotec Repaplast Primer New Formula .
Application method:	Shake can well before use. Spraying distance 25-30 cm. Apply in one or two covering layers. When applying several layers, leave at least 10 minutes and no more than 4 hours for the product to evaporate between each layer. If you still want to spray a layer after 4 hours, leave the product to cure fully to prevent it burning up. After use, invert can and spray until clear to clean the nozzle.
Dust dry:	± 30 minutes (at 20°C / 65% relative humidity)
Curing time:	After ± 7 days (at 20°C / 65% relative humidity)
Recommended layer thickness:	Even, covering layer
Cleaning of materials used:	With Innotec Multisol
Cleaning of hands:	With Innotec Power Scrubs or with Innotec Safe Hand Clean Plus and water
Shelf life:	2 years in original, unopened packaging

Storage conditions: Store cool and dry

Type of batchcode: F

EAN Code: 5400563010617

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
