

Thinning Agent

Art.: 80.0003.9999

Bottle 125 ml

Thinning Agent is part of the Innotec Stone Chip Repair System and the Innotec Stone Chip Repair System - VW (VAS 6083A). It is a thinner that has been specially developed to lower the viscosity of Stone Chip Colour. In addition, Thinning Agent is extremely well suited to the removal of old lacquer residues from the bodywork. The product is also used to clean the brushes in the Stone Chip Repair System.
