

## PRODUCT INFO

# Xpress Wash 5 l

Art.: 04.1121.9999

Bottle 5 l

Xpress Wash is a paint cleaner for high-gloss surfaces. Xpress Wash cleans, protects and is also the ideal lubricant for the [Xpress Clay Towel](#) and [Xpress Clay Glove](#).

This 3-in-1 paint cleaner is suitable for all types of car paint. It does not only remove dirt, but also leaves a protective wax layer which, when rubbed dry with the [Aquatec 500](#) or the [Xpress Towel](#), forms a protective and glossy top layer. This ensures that the surface remains for a long time dirt-repellent and protected against road salt and other contaminants.

After cleaning with Xpress Wash, extra protection and shine can of course be applied with the Innotec [Xpress Wax](#).

For optimal results it is recommended to use Xpress Wash in combination with the [Xpress Sponge](#). Note that the product is also suitable for being used in high-pressure cleaners with a dosing system.

- Cleans and protects in one go.
- Contains high-quality protective wax.
- Facilitates drying thanks to hydrophobic properties.
- Biodegradable.
