

## Paint Stripper Spray

Art.: 04.2200.9999

Aerosol can 500 ml

Paint Stripper Spray is a paint stripper for the easy removal of carbon residues, gasket maker, glue and various types of lacquer.

The product is extremely well suited to the removal of residues from all kinds of standard or custom gaskets, as found in the thermostat housing, inlet manifold, sump or gearbox. Or the dynamo cover, ignition or clutch.

Since old residues can be removed perfectly in this way there is no risk of damage caused when they are removed mechanically such as with a screwdriver, for example.

The product is also ideal for removing carbon deposits from valves and pistons. In addition, it is also high suited to the removal of paint residues, prior to welding or tapping, for example.

Paint Stripper Spray is effective, but does not contain caustic substances, methylene chloride and methanol. This means the product is less harmful to the environment than regular paint strippers. Due to its gel form Paint Stripper Spray adheres well to the surface, where it can have an optimal effect. Residues rinse away easily in water.

Thanks to its aerosol packaging Paint Stripper Spray is extremely user-friendly and easy to apply.

- Removes carbon deposits, gaskets, glue and various types of lacquer.
- Very effective, but no caustic substances added.
- Contains no methylene chloride.
- Contains no methanol.
- Gel form for a longer effect.
- Easy to remove.
- Non-flammable.
